DISPOSITION	

1

THIS IS UNPUBLISHED INFORMATION

1. About 10 NM on the night of 10 Jul 58, while enroute from Lexington to Myrtle Beach, we saw a bright light in the air which was trailed by a long stream of black smoke. It was much too bright for a plane. It may have been five to 10 miles distant and was under two thousand feet above ground.
 2. We inquiries of our guide what it was but got only a hazy reply that it was probably a flying saucer. The guide was "Twister" who had been with a party of which I was a member on a previous trip. Whether he knew what it was could not be determined.

(Editorial Comment: Your attention is invited to CO-B-J113676 from another source, in which the same incident is reported.)

二四三

...the continued support of CEA, International Trade, State and Defense in the negotiations, particularly in the areas of nuclear weapons and space. Not to be discounted is the contribution of our scientific and technical community who are constantly and effectively advancing the cause of CEA. And FBI agents or Bureau officials
